## 2002 Olympic Winter Games Commemorative Coins

# Capture the spirit

SALT LAKE 2002

of the 2002 Salt Lake Olympic Winter Games by purchasing the 2002 Olympic Winter Games Commemorative Coin series. These magnificent gold and silver commemorative coins represent the worldwide and historic event that will take place in February of 2002 in Salt Lake City, Utah.

The coins are designed using the 2002 Olympic Winter Games theme of "Fire and Ice."

It is the fire that propels the athlete – the ice, the field for competition. "Fire and Ice" themes are also captured in the Salt Lake 2002 crystal logo, which represents the three characteristics of Courage, Culture and Contrast.

Coin designs  
are artist  
renditions

The ice is represented on the obverse (heads) of the silver coin with a design of angles found in a snow crystal. The Salt Lake City skyline surrounded by the jagged Rocky Mountains encompasses the coin's reverse (tails).

Coin  
designs  
are artist  
renditions

The obverse of the gold coin superimposes the crystal logo on top of the Games' secondary logo – "Rhythm of the Land." Fire is represented on the reverse, which features a cauldron and a flame, a focal point at each Olympic Winter Games.

Show your support for our athletes by purchasing these exquisite examples of numismatic art. The gold and silver Salt Lake 2002 Olympic Winter Games Commemorative Coins are produced in both proof and uncirculated condition.

These 2002 dated commemorative coins will begin shipping in January 2002. Each coin will be accompanied by its own official Certificate of Authenticity and is offered in various packaging options:

# U.S. Capitol Visitor Center Commemorative Coins

## *Be a part of history*

by celebrating the first meeting of Congress in the U.S. Capitol and helping to build the first ever Visitor Center for the U.S. Capitol. Thomas Jefferson, America's third president, took great interest in the construction of Washington's federal buildings. This was especially true of the U.S. Capitol, which he called, "the first temple dedicated to the sovereignty of the people."

This is the first traditional three-coin modern commemorative coin series released by the U.S. Mint since 1995. These coins exquisitely showcase the magnificence of the original Capitol building built in 1800 and the building as it stands today.

A portion of the proceeds from the sale of each coin – \$35 for gold, \$10 for silver, \$3 for clad – is authorized to be deposited in the Capitol Preservation Fund for the purpose of aiding in the construction, maintenance, and preservation of a new Capitol Visitor Center. This modern facility will offer free educational movies and exhibits, and eliminate long waits outside.

The coins may be ordered in various packaging options, each accompanied by its own official Certificate of Authenticity.

The Formation of the Union Set tells this story with photography of many coins utilized prior to the establishment of the U.S.
